

Have you ever wanted to be a lumberjack, a construction worker, a contractor, a plumber, an electrician or any trade related job of the construction industry? Well, you'll need to know some phrases to let others in the trade know you are the **real deal**. These are time sensitive so use them soon & often.

They are as follows;

“It'll turn around.”

“I've seen it like this before and it always comes back.”

“It's pickin up”

“It's getting better”

“It's a hot one”

“Hot enough for you?”

“Workin hard or hardly workin?”

“How ya'll makin it?”

“How's business?”

“Ya'll stayin pretty busy?”

“I heard dat”

“I'll take it any way I can get it”

“Got any work?”

“You might as well go ahead and build now, cause it's not getting any cheaper”

More Jokes:

Two termites walk into a bar and say, Is the bartender here?
